A Guide to The Rainforest

The most important rule of thermal bathing is to allow time for your body temperature to cool and normalise after using a warm hydrothermal experience. Body cooling can be accelerated by using the various showers and Vitality Pool. Please proceed through The Rainforest according to the map sequence for optimal benefits.

A period of passive relaxation on a lounger is always recommended to complete the therapeutic process. The greatest benefits are achieved when the guests adhere to these rules and guidance from your Hydrothermal Host. Guests who do not adhere to them run the risk of physiological harm.

Children under 16 years are not permitted to use the hydrothermal facility as it is not advisable to subject their developing bodies to extreme temperatures.
